

# COMING SOON!

| **laura GOTTLIEB**

An exciting project is set to be completed by the time you are reading our Spring TBE Quarterly! The Joan Meyers Jampel Center for Michigan Jewish Heritage (Jampel Center), named in honor of our incredible TBE member, is moving in! As you might have read in previous Temple publications, the Jampel Center is a collaborative effort to promote our state's Jewish legacy through the preservation of archival collections and joint outreach. It strives to connect the past with the present and celebrate the contributions of the Jewish community to Michigan and beyond. The founding members of the Jampel Center include TBE's Leo M. Franklin Archives and the Leonard N. Simons Jewish Community Archives of the Jewish Federation of Metropolitan Detroit. Already, the Jampel Center has established an online digital database ([mijewishheritage.catalogaccess.com](http://mijewishheritage.catalogaccess.com)) to connect materials to users, successful social media to promote collections, and coming this year - a physical space to provide access and educate the public.

## WHERE WILL THE CENTER BE LOCATED?

There are a few pieces to this project, most of which you will find inside Temple's walls! The construction project includes a state-of-the-art archival storage wing in converted storage space located by the DeRoy Sanctuary. What was the cloak room and storage room will now be home to over 2,000 linear feet of high-density shelving and will house the bulk of the archival collections that are currently within the Franklin and Simons collections. The Franklin Archives will also keep its dedicated room on the second floor for collections and a digitizing station. Bringing the two archives under one roof is extra special because up until the move to TBE, most of the Simons archival collections were housed all the way in downtown Detroit - which means someone studying Jewish Michigan history has a great deal of traveling to access the various collections. Moving their collections into our building, alongside the Franklin collections, will allow better access, ease of use, and more awareness to our history and heritage.

Another exciting piece is the addition of a reading room within the Prentis Memorial Library. The general use of the library will remain, but there are added researcher tables and staff desks to allow users better access to the collections with professional assistance - all while surrounded by even more incredible resources that are already in our library!

## WHO RUNS THE JAMPEL CENTER?

The Jampel Center is managed by **Laura Gottlieb** (me!) Director of Cultural Resources at Temple Beth El and **Robbie Terman**, Director of the Leonard N. Simons Jewish Community Archives of the Jewish Federation of Metropolitan Detroit. In addition, we work with Brian Schamber, archivist for the Simons Archives, and have the help of many incredible volunteers. The staff remain employees of each of our "home" organizations but work together in partnership to run the Jampel Center. The mission of the Jampel Center is to provide outstanding archival preservation, and outreach services for the collections of its partners and to be the primary source of Michigan Jewish history for all. The Jampel Center was founded by these two organizations, but we hope to include more collections in the future as we pursue our goal of being the hub for Jewish heritage collections. Together we manage the physical collections, social media, website, online searchable database, and Jampel Center programming.

These upgrades and changes mean more use and appreciation of these archival materials, giving community members and traveling researchers a better understanding of the incredible impact of Jewish people and organizations in our state and beyond. The Jampel Center is for everyone, so I hope you will visit us and learn more about the histories of those who helped build our community and see how your story fits into the larger picture of Michigan's Jewish heritage.
